

## QUALITY POLICY

Portsmouth Aviation Limited is fully committed to providing all customers a comprehensive and effective light to medium engineering and technical support 'one stop shop' design, development, qualification, manufacturing and finishing solution, which meets or exceeds customer requirements and expectations and ensures that equipment and services provided are both safe and conforming. Thus ensuring customer satisfaction.

As part of this commitment, the application of new and appropriate technologies, training, awareness and maximising the talents and abilities of all personnel in the most effective and competitive manner, to maintain the AS9100, ISO9001 (including MPAS), DAOS and other main customer approvals currently held and comply with all applicable customer, statutory and regulatory requirements is paramount to the company's future success.

This policy provides the framework for periodically setting objectives and targets for the continual improvement of the Quality Management System's effectiveness. These are cascaded down into lower level objectives and targets linked to defined processes. All of which will be reviewed regularly by Senior Management.
